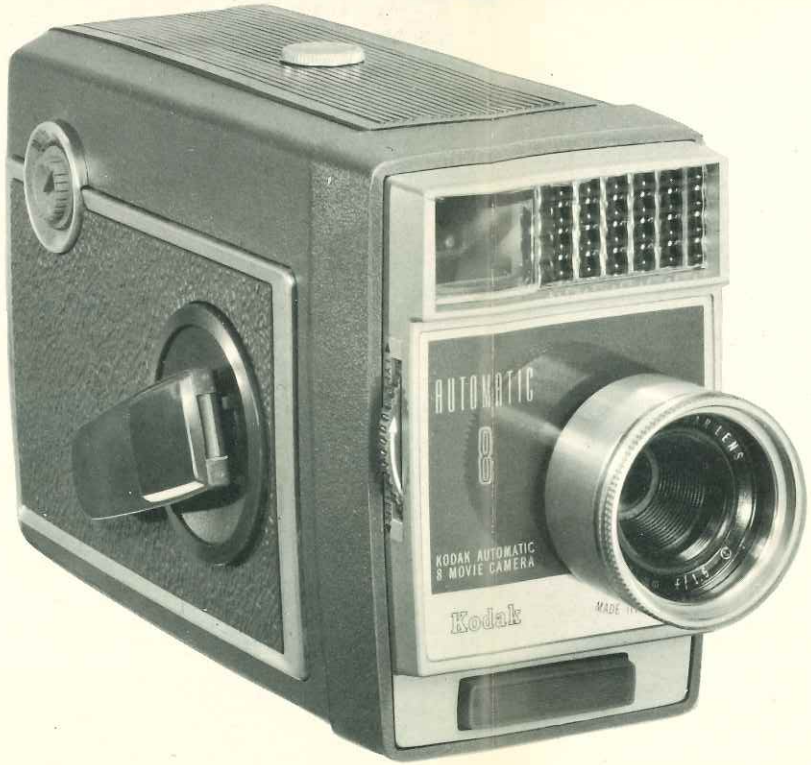
AUTOMATIC 8 MOVIE CAMERA

ELECTRIC-EYE METER SETS THE LENS

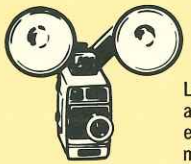
- Lowest-priced Kodak automatic movie camera
- Dial will adjust electric-eye meter for the improved KODACHROME II Film as well as for its predecessor, regular KODACHROME Film
- Low-light indicator shows in viewfinder
- Built-in "Type A" filter

JUST PRESS THE BUTTON FOR WONDERFUL FULL-COLOR 8mm MOVIES



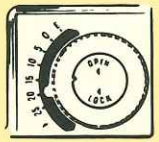
KODAK Automatic 8 Movie Camera

Electric eye sets the lens automatically — signals when light is too dim for good movies.

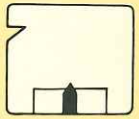


Light bar attaches for easy indoor movies.

Dial on side of camera adjusts the electric-eye meter for film speeds 10 to 40.



Footage meter resets automatically.



Arrow visible in viewfinder tells when built-in "Type A" filter is in position.

For wonderful full-color 8mm movies, you just press the button. Indoors or outdoors, the built-in electric eye automatically and continuously adjusts the lens for the light. A signal in the viewfinder warns you when there isn't enough light for good movies even with the fast *f*/1.6 lens. No need to focus the KODAK Automatic 8. All subjects from a few feet, way out to infinity are in focus. You shoot indoors or outdoors on the same roll of KODACHROME Film, using the built-in filter. And you'll get about 40 average-length scenes on one roll of 8mm film. Footage meter resets itself automatically after loading.

KODAK Automatic 8 Movie Kit

Has everything one needs to take color movies indoors or out. Includes the KODAK Automatic 8 Movie Camera, plus the KODAK 8 Movie Light with two reflector lamps for ideal "over-the-camera" illumination.

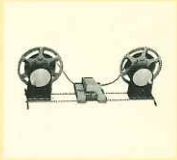
New KODACHROME II Film

America's favorite color film now faster, finer than ever. 2½ times as fast as its predecessor, regular KODACHROME Film. Better color, greater sharpness, wider latitude. 8mm and 16mm.

KODAK MOVIE AIDS

KODAK Field Case
Helps protect your KODAK Automatic 8 Movie Camera from damage. Special drop-front design keeps camera ready for instant use without removal from case. Quality workmanship.

KODAK 8 Movie Light
Compact light bar which fastens to the top of the KODAK Automatic 8 Movie Camera. Accepts two 300-watt or 375-watt reflector flood lamps (extra). Handy exposure guide on the bar.



KODAK PRESSTAPE Editing Outfit
For 8mm and 16mm films. Accepts 400-foot reels. Includes rewind, PRESSTAPE Splicer, PRESSTAPES. Rewind and splicer may be had separately.

KODAK Sun Gun Movie Light, Model 1
New, compact movie light designed for use on most current Kodak movie cameras. Attaches to top for ideal "over-the-camera" illumination.

KODAK Projection Screen (40 x 40)
This de luxe screen — 40 x 40-inch beaded surface — is ideal for movies, slides. Its tripod legs open automatically for quick setups. Easy to store.

KODAK Movie Reels and Cans
Assemble your 8mm movies on larger reels for longer shows. Store them in film cans. 200-foot and 400-foot reel with can available.
